

Innovative Features

- Design and customize content with stylesheet design tools.
- Auto-generate indexes, tables of contents, PDF bookmarks, cross-referencing and hyperlinks.
- Create outputs from any DITA document instantly with out-of-the-box stylesheets.
- Integrate with XML and DITA editing tools using plugins for XMetal and oXygen.
- Enable loose-leaf publishing with versioning and differencing, release packs, filing instructions, and list of effective pages.
- Experience a point and click interface with stylesheeting; a graphical page layout editor, and automatic stylesheet generation for new document types.
- Utilize CALS and HTML tables, automatic footnotes, side notes, and floats.
- Future-proof content automatically.
- Store stylesheets and use them to generate output documents on demand.
- Experience hyphenation for 30 European languages and more.

Benefits of Using Orbis Products & Solutions

Orbis software has a global user community who work with our product developers to improve our products. Our user base plays a critical role in shaping the way we upgrade and maintain our products. All Orbis clients have access to a 24/7 help desk and with product documentation and support.

RSuite Publish excels when XML content must be delivered in several formats and/or at frequent intervals. With RSuite Publish you can define the styling requirements for multiple output formats with a single stylesheet in a fraction of the time required by traditional methods

The RSuite Publish dashboard allows multiple authors to access a shared repository. Authors can edit their data and see a preview of the published version through the same intuitive interface. The repository also stores the style information for each publication.
